PROFILE

Identity and Access Management engineer with over eight years' experience spanning **identity governance and privileged access**, in banking, energy, consumer goods, automotive finance and construction materials.

Close to four years at Holcim's EMEA Digital Center as SailPoint IdentityIQ technical reference, owning the IGA platform end to end alongside the One Identity Safeguard PAM integration, the Red Hat SSO estate and the CI/CD pipelines behind them – a footprint of **over 50,000 identities across more than 40 countries** in Europe, Africa and the Middle East. Now Senior Consultant at iC Consult, holding the same technical reference remit for the Spanish profit centre.

CORE EXPERTISE

Identity Governance	SailPoint IdentityIQ, SailPoint IdentityNow, SailPoint File Access Manager
Privileged Access	One Identity Safeguard (Password Vault, Privileged Access), Silverfort (Active Directory account protection), Adaptive Shield (SaaS security posture)
Access Management	Red Hat SSO / Keycloak, SAML, OAuth 2.0 / OIDC, Single Sign-On, Multi-Factor Authentication
Governance Processes	Joiner-Mover-Leaver, Role-Based Access Control, Segregation of Duties, Critical Access Request Detection, Access Certification
Engineering	Java, Python, PowerShell, XML, REST & SOAP web services
Cloud & DevOps	AWS (EC2, RDS), ROSA / OpenShift, Ansible, Jenkins, GitHub, Active Directory, Google Workspace

PROFESSIONAL EXPERIENCE

iC Consult | Madrid, Spain

Feb 2025 – Present

Senior Consultant – Identity & Access Management

- **Technical reference for SailPoint technologies across the Spanish profit centre**, supporting the business team on technical assessments for new opportunities while facilitating the flow of SailPoint knowledge across the technical team.
- SailPoint IdentityIQ technical reference for a **German banking group in the automotive sector**, designing and implementing complex technical requirements and resolving critical incidents.
- Delivered the client's **IdentityIQ upgrade from 8.4p3 to 8.5p1** end to end, owning the assessment, the design of the operation and its execution.
- Train and mentor junior consultants on the client project, bringing them to the point of **resolving complex tasks within six months** of joining the team.

Holcim EMEA Digital Center | Madrid, Spain

Jun 2021 – Feb 2025

User Life Cycle Expert

Scope: 50,000+ identities • 40+ countries across Europe, Africa and the Middle East • 60+ integrated applications (IGA)

- Designated **IdentityIQ technical reference** for the L3 team, resolving escalated and technically complex incidents across the estate, tutoring the L2 team and new joiners to L3, and delivering technical training to stakeholders.
- Owned the group's **privileged access estate**: integrated **One Identity Safeguard** (Password Vault and Privileged Access) for SAP privileged sessions and firefighter access, and rolled out **Silverfort** for Active Directory account protection and **Adaptive Shield** for SaaS security posture management.
- Led the **Identity Services roll-out** into eleven further countries – four in Africa, five in the Middle East and Africa and two in Europe.
- Designed and implemented **Segregation of Duties and critical access request detection**, covering several toxic-combination rules and enabling the Internal Control team in the approval process.
- Administered **Red Hat SSO (Keycloak)** as the group access management layer, delivering Single Sign-On, SAML and OAuth 2.0 / OIDC federation with multi-factor authentication across several of the group's applications.
- Owned the **CI/CD pipelines** for both platforms – GitHub, Jenkins and Ansible into AWS EC2 and RDS for IdentityIQ, and into ROSA (OpenShift on AWS) for Red Hat SSO – and **delivered every upgrade and patch cycle across the full stack under ownership**.

- Contributed to IAM projects as one of the practice's SailPoint IdentityIQ experts for Bankinter (ES), Grupo Salinas (MX) and Puig (ES).
- Worked directly with business and IT stakeholders to analyse requirements and design tailored IdentityIQ solutions, from workflow through to connector level.
- Built bespoke client demonstrations supporting pre-sales.

Key clients: Bankinter (ES) • Grupo Salinas (MX) • Puig (ES)

Earlier: Cyber Security Consultant – IAM, **SIA Group**, Alcorcón – SailPoint design and implementation **Mar 2018 – Apr 2020**
for Santander Bank (ES) and CEPSA (ES).
